

3-Phase Diode Bridge

DF100NB160

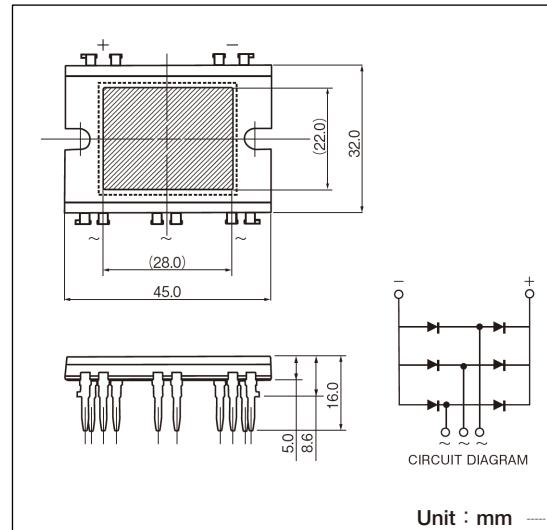

UL; E76102

Features

- Power cycle capability (Long-term reliability) is 3 times better than before thanks to the use of "Transfer Molding Package" (at $\Delta T_j = 100^\circ\text{C}$)
- Volume ratio of 1/10, footprint size 1/2 compare to our existing product
- Reduced thermal resistance with unique internal structure and copper heat plate
- Dual terminals for high capability and reliable solder contacts

Applications

- Packaged Air Conditioner / Motor Drives / Servo Controller / Battery Charger / Power Supply
